Opticks binding and collation
Why Latin? by Nicholas Humez

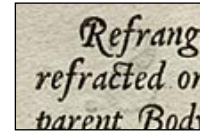

ISBN: 1-891788-04-3

Isaac Newton *Opticks*

This Octavo edition contains Browse, Read, Examine, and Print files, each with a progressively higher resolution. In general, the higher the resolution, the greater detail one can see; at the same time, it takes longer to display the files.

Files to open:

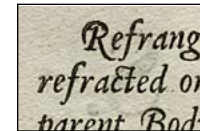

- **Browse "NwtOpt2B.pdf"**

108 dpi, color

Optimized for speed. Use this file to view the book quickly, or for use on slower, older computers. Set Acrobat's Preferences/General to 150% on Max "Fit Visible" Magnification.

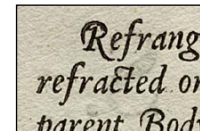

- **Read "NwtOpt3R.pdf"**

144 dpi, color

Live text for searching, and for copying and pasting. Precision reading onscreen. Ideal for today's faster computers. Set Acrobat's Preferences/General to 200% on Max "Fit Visible" Magnification.

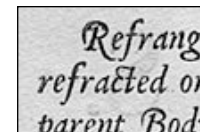

- **Examine "NwtOpt4X.pdf"**

216 dpi, color

Examine the book's unique details in exquisite clarity. Can run slowly even on high-end computers. Set Acrobat's Preferences/General to 300% on Max "Fit Visible" Magnification.

- **Print "NwtOpt1P.pdf"**

72 dpi, black & white

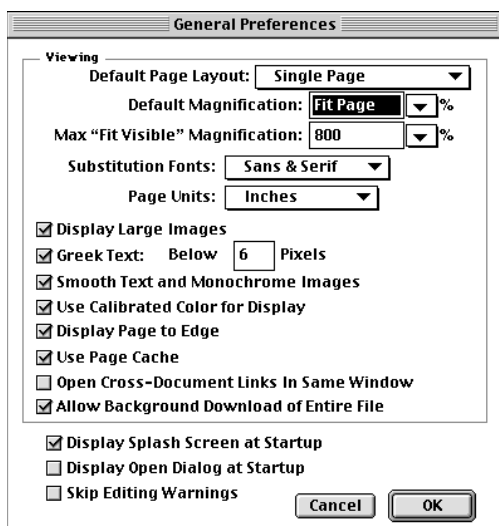

Open this version for printing to black-only printers. Not for viewing.

Set Acrobat Preferences

The Octavo edition of Isaac Newton's *Opticks* has four file versions – Browse (NwtOpt2B.pdf), Read (NwtOpt3R.pdf), Examine (NwtOpt4X.pdf), Print (NwtOpt1P.pdf) – each is seen at its best onscreen when the Acrobat preferences are set for optimum viewing. The Print version is not for onscreen viewing, so these settings do not apply.

Octavo recommends you optimize three settings within Acrobat Preferences/General settings.

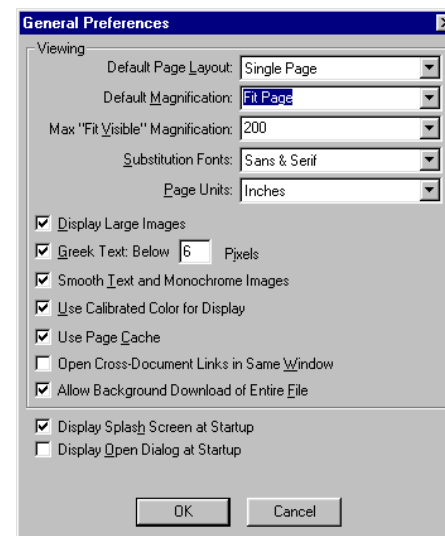

1. “Default Magnification,” should always be set to “Fit Page.” Click on the downward triangle and select “Fit Page” from your choice of magnification views.
2. Max “Fit Visible” Magnification should be set to 150 for Browse, 200 for Read, or 300 for Examine.

Mac OS

Set Acrobat Preferences

3. In the long list of check-boxed items, about the seventh item (depending on your platform and version of Acrobat), is the “Open Cross-Document Links in the Same Window.” This item should be *unchecked*. If it is checked, click on the check box itself to deselect it.

Windows

Acrobat Preferences can be changed any time. Once you become familiar with viewing your Octavo editions onscreen, you might consider revisiting the preferences settings to optimize viewing in other ways. Preference settings activate immediately after you close the Preferences window.
